## Press Release

### Africa Energy Announces Odfjell Rig Mobilization

**July 2, 2020 – Africa Energy Corp. (TSX Venture: AFE) (Nasdaq First North: AEC)** (“Africa Energy” or the “Company”), an oil and gas company with exploration assets offshore South Africa, is pleased to announce that the Odfjell Deepsea Stavanger semi-submersible rig has departed Bergen, Norway for South Africa to commence the upcoming multi-well drilling program on Block 11B/12B.

Garrett Soden, the Company’s President and CEO, commented: “We are excited to begin the next phase of exploration drilling on Block 11B/12B offshore South Africa. The Odfjell rig is mobilizing from Norway to South Africa in order to spud the Luiperd-1 well by September. Luiperd is the largest prospect in the Paddavissie Fairway and has been de-risked by the nearby Brulpadda discovery and subsequent 3D seismic work.”

Deepsea Stavanger drilled the basin-opening Brulpadda oil and gas discovery on Block 11B/12B in February 2019. Block 11B/12B is located in the Outeniqua Basin 175 kilometers off the southern coast of South Africa. The block covers an area of approximately 19,000 square kilometers with water depths ranging from 200 to 1,800 meters. The Paddavissie Fairway in the southwest corner of the block includes the Brulpadda discovery, as well as several large submarine fan prospects that have been significantly de-risked by the discovery and subsequent 3D seismic acquisition.

Africa Energy holds 49% of the shares in Main Street 1549 Proprietary Limited, which has a 10% participating interest in Block 11B/12B. Total E&P South Africa B.V. is operator and has a 45% participating interest in Block 11B/12B, while Qatar Petroleum International Upstream LLC and CNR International (South Africa) Limited have 25% and 20% participating interests, respectively, in Block 11B/12B.

### Forward looking statements

*Certain statements contained in this press release constitute forward-looking information. These statements relate to future events or the Company's future performance, business prospects and opportunities, which are based on assumptions of management.*

*The use of any of the words "will", "expected", "planned" and similar expressions and statements relating to matters that are not historical facts are intended to identify forward-looking information and are based on the Company's current belief or assumptions as to the outcome and timing of certain future events. These forward-looking statements involve risks and uncertainties relating to, among other things, changes in oil prices, results of exploration and development activities, including results, timing and costs of seismic and drilling activity in the Company's area of operations and, uninsured risks, regulatory changes, defects in title, availability of funds required to participate in the exploration activities, or of financing on reasonable terms, availability of materials and equipment, timeliness of government or other regulatory approvals, actual performance of facilities, availability of third party service providers, equipment and processes relative to specifications and expectations and unanticipated environmental impacts on operations. Actual future results may differ materially. Various assumptions or factors are typically applied in drawing conclusions or making the forecasts or projections set out in forward-looking information. Those assumptions and factors are based on information currently available to the Company. The forward-looking information contained in this release is made as of the date hereof and the Company is not obligated to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable securities laws. Because of the risks, uncertainties and assumptions contained herein, investors should not place undue reliance on forward-looking information. The foregoing statements expressly qualify any forward-looking information.*

*Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.*
